DENTISTRY AND HEALTH TOURISM IN GREECE

DR. NIKOLAOS S. KOUVELAS
ASSISTANT PROFESSOR ATHENS UNIVERSITY
CEO EURODENTICA   S.A.
BOARD MEMBER, GREEK HEALTH TOURISM COUNCIL (ELITOUR)

The **Aim** of this presentation is to present **modern dentistry** as well as to :

1. Explore the possibilities of opening dental offices in Arabic countries with the philosophy of specialized dentistry
2. Explore the possibilities of Arabs to finance the expansion to other European countries.
3. Present the possibilities of Arab-Hellenic dental collaboration

Why we are unique:
EURODENTICA is an organization for high quality dentistry through specialization.

1. Maxillofacial Surgery
2. Orthodontics
3. Endodontics
4. Aesthetic Dentistry
5. Pediatric Dentistry and Prevention
6. Periodontology
7. Prosthodontics and Cad / Cam
8. Dentistry for Disabled

WHO WE ARE

Precondition of our colleagues is 3 years of postgraduate specialization

Dental Tourists should know:

1   Updated and Standard Procedures through Certification

2   Protocols of treatments

3. Continuing Education

- Sociologically, Culturally (New ways for communication)
- New Technologies in Dentistry
- New Certified Treatment Methods
- New methods of Payments (CryptoCurrencies)

Certification in Dentistry by:

- SWISS APPROVAL
- TEMOS (TRUST, EFFICIENT, MEDICAL OPTIMIZED SERVICES)
- EN 15224 THROUGH DIFFERENT BODIES

Example of Dental Tourism in a most **difficult and combine case**

Disabled Patient (Autism, Mental Retardation or Dental Phobic patient)
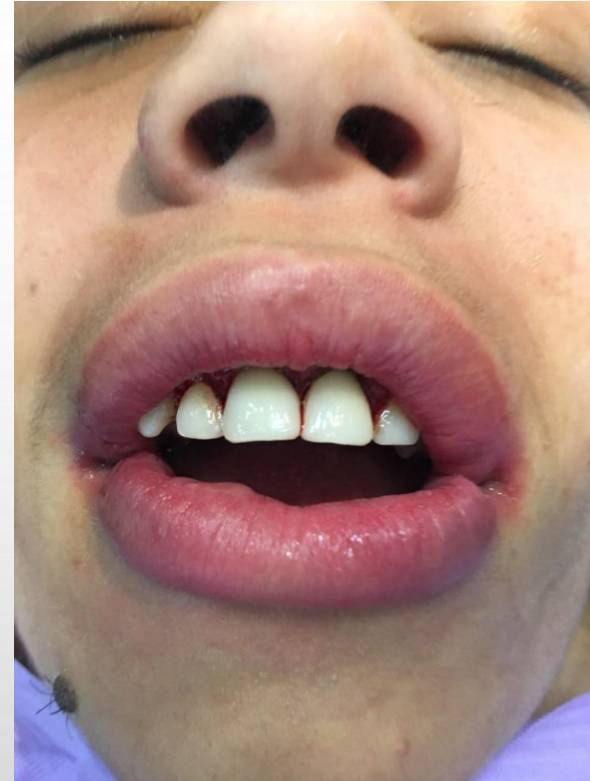

They deserve the best treatment:

- Preventive Dentistry for the attendees

- Sedation - Propofol for treatment in one session, if possible (with the presence of an anesthesiologist)

- Treatment from different specialties (periodontist, endodontist, aesthetic dentist, prosthodontist and oral surgeon)

DENTAL TOURISM tends to be a LUXURY TREATMENT
And we can make it **AFFORDABLE**
