13th ARAB-HELLENIC ECONOMIC FORUM
Athens, 27 & 28 November, 2024

Business Delegation to Baghdad, Iraq 8-12 December 2024 (new dates)

The Arab-Hellenic Chamber, in close coordination with the Embassy of Iraq in Athens and the Union of Chambers of Commerce of Iraq, which it has the privilege of representing in Greece, announces the organization of a business mission in Baghdad, Iraq, from December 8 to 12 (new dates).

Due to our cooperation with the afore-mentioned entities, the participants will have intensive business meetings with prominent Iraqi entrepreneurs, each in their fields of interest. The Arab-Greek Chamber has the necessary know-how, database and network to help Greek businessmen open channels of communication and cooperation and strengthen their presence, services and/or exports in the Iraqi market.

Iraq is potentially one of the richest countries with vast reserves of natural resources, a market of 41 million, a promising economy and opportunities for business partnerships in all fields of activity.

The business mission coincides with a planned visit of the Greek Secretary General of International Economic Relations, Mr. Dimitris Skalkos, in Iraq, who will join the Chamber's delegation at the opening of our business meetings in Baghdad.

Whether Iraq is a familiar destination or a new market for your company, don't miss the opportunity to join us on this unique Arab-Hellenic Chamber signature journey!

For more information, you can contact Mrs. Maria Vestarki (ext. 110) and Katerina Michail (ext. 101) at 2106711210/6726882 or at chamber@arabgreekchamber.gr.

One more week to go!

FOREWORD

Harris Geronikolas
President

Rashad Mabger
Secretary General

Dear Reader,

This year, 2024, marks a significant milestone - the 45th anniversary of the Arab-Hellenic Chamber's establishment. As we celebrate this occasion, we take a moment to honour the visionary Founders and pioneers who paved the way for our success. Their tireless efforts and foresight have been instrumental in shaping the Chamber's continued growth and esteemed reputation. Today, the Arab-Hellenic Chamber proudly stands as a beacon of quality, distinguished among the prominent joint chambers operating in Greece.

We are deeply grateful for the steadfast support of the Union of Arab Chambers, the Council of Arab Ambassadors, and the Greek authorities, whose collaborative efforts have been instrumental in our growth. As we strive for excellence, we remain steadfastly committed to the core foundation of our Chamber: fostering stronger Arab-Greek relations across all business spheres.

The past two years have been a testament to our commitment to excellence, marked by a significant rise in business activity. We have strategically shifted our focus towards sector-specific events, designed to spotlight key industries that drive our economies and bilateral commercial relations. This approach was exemplified by the success of the "1st Arab-Hellenic Maritime Conference" on July 5th, 2023, and the "1st Arab-Hellenic Health Conference" on May 23rd, 2024. Both events drew high-level participation from Greece and 17 Arab countries, enjoying a diverse and impressive attendance.

This issue coincides with the "**13th Arab-Hellenic Economic Forum**," a premier event that shines a spotlight on two pillars of strategic significance: energy and construction, along with their respective subsectors. As we gather esteemed contributors and attendees, we are confident that we are reaching new heights and adding another triumph to our legacy. We are optimistic as we look forward to the culmination of the 13th Forum's deliberations, discussions, and business meetings, which we hope will yield a great success in bridging the gap between Arab and Greek business leaders.

As we bring the "13th Arab-Hellenic Economic Forum" to a close, we will culminate the event with a Gala Dinner, a fitting tribute to the visionaries who paved the way for us - our esteemed Founders and Pioneers.

As we reflect on our journey, we are also deeply grateful for the commitment and dedication displayed by our Chamber's staff members at every event. Their efforts have been instrumental in our success, and we take this opportunity to extend our heartfelt appreciation to each, and every one of them.

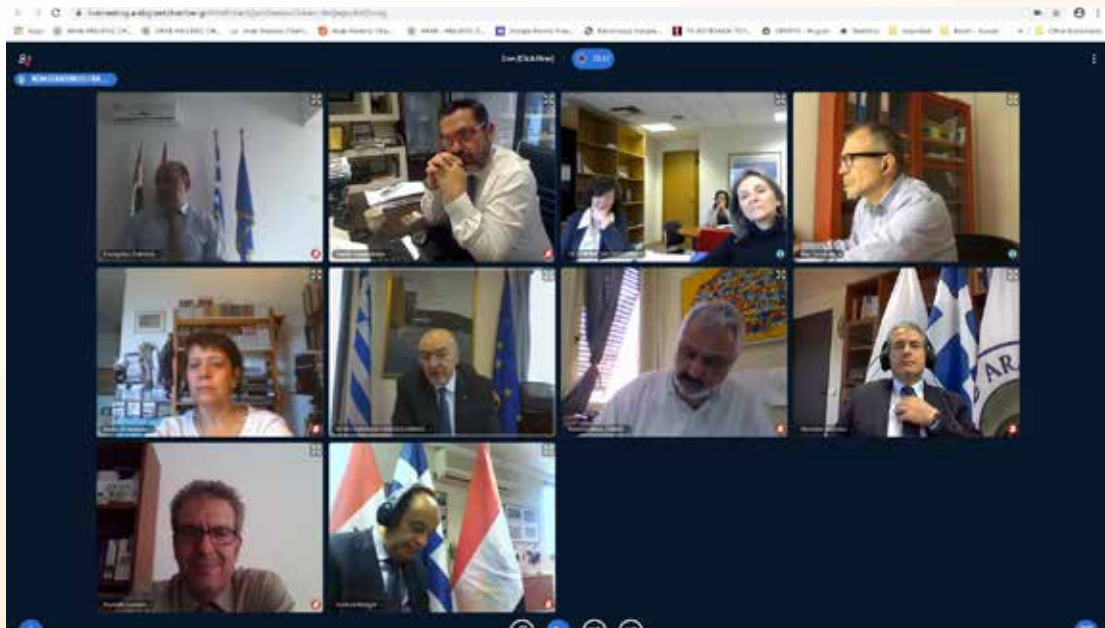

Wishing you and your loved ones a joyous holiday season, filled with warmth, love, and happiness.

Special Contribution & Support

General Outlook

The “13th Arab-Hellenic Economic Forum” which will be convened on **November 27-28, 2024**, at the Athenaeum Intercontinental Hotel of Athens, Greece, coincides with the 45th anniversary of the establishment of the Arab-Hellenic Chamber. It has been, indeed, a very long journey of the Chamber, throughout which it adhered to its commitment to building bridges and opening channels of communication between the Arab and Greek business communities. Its role has been tangible in increasing the trade balance and contributing to the investment flow between the two sides. Over time, the Arab-Hellenic Chamber has acquired a prestigious status and is now considered one of the most dynamic joint chambers operating in Greece.

Due to the strategic importance of energy and construction in the economies of our countries, the 13th Forum will address these two sectors, their sub-sectors and related fields. In terms of energy, it will tackle the production, transmission and distribution of energy, sustainability and environmental impact. In the field of construction, the Forum will focus on infrastructure and reconstruction projects, building materials, architecture and engineering. There is an abundance of opportunities and factors which could enhance the partnership and cooperation between the two sides, some of which are human and natural resources, geographical proximity, and the experience and technical know-how that has been accumulated by both sides throughout the years. During these two days of business meetings, deliberations and networking, the Chamber will commemorate its 45th anniversary with cultural events and a festive Gala dinner.

45 years of Excellence in Partnership

The Qatar Chamber of Commerce and Industry (QCCI)

*H.E. Sheikh Khalifa Bin Jassem Bin
Mohammed Al Thani
Chairman*

*Mr. Rashed Bin Nasser Al Kaabi, Board
Member of Qatar Chamber
⊕ 1st Vice President of Arab-Hellenic Chamber*

The Qatar Chamber of Commerce and Industry (QCCI) is the primary representative of the Qatari private sector. Its principal activities include representing the general interest of the business community, providing information and advice to members, promoting economic development, providing market information and economic statistics, encouraging foreign investment, and facilitating international trade.

Established in 1963 by virtue of the Law No (4), Qatar Chamber of Commerce & Industry (QCCI) is one of the oldest chambers in the GCC countries. Its main role is to organise business interests and represent the Qatari private sector locally and globally as well as support the country's economic actors and productivity.

On 29th Nov 2017, His Highness the Emir Sheikh Tamim bin Hamad Al-Thani issued law No. 23 of 2017 which amended some provisions of the Law No. 11 of 1990 on the establishment of the Qatar Chamber of Commerce and Industry.

The Qatar Chamber plays a key role in enhancing cooperation between Qatari private sector companies

with their counterparts from other countries from around the world. It also helps companies connect with government entities, as well as acts as a bridge for Qatar-based firms seeking to cooperate with local and international firms.

Its vision revolves around achieving international leadership among the world chambers of commerce in the frame of the Qatar National Vision 2030 and to be the focal point for all world institutions and bodies for any information and data about Qatar's business community and about doing business in one of the most dynamic economies in the world.

The Chamber aims to regulate, represent, defend, and promote the commercial, industrial, and agricultural interests in Qatar and support the national economy and productivity for the advantage of the country in general and the interests of its member companies.

It also strives to support and develop a sustainable business environment for local and foreign businesses,

as well as develop an international trade system and enhance its cooperation relations with other chambers around the world.

Furthermore, it seeks to enhance Qatar's economy diversification strategy and attract foreign investments and exert all possible efforts to enhance Qatar's position as an international business centre and an attractive investment destination.

Qatar Chamber in 2023

Last year was a year rife with activities and achievements for the Qatar Chamber, especially following the remarkable success of Qatar's hosting of the 2022 World Cup. This success came after more than a decade of meticulous preparations at the state level, resulting in numerous benefits and advantages that significantly contributed to the progress of the national economy. These achievements align with the country's commitment to realizing its national vision for 2030.

In 2023, the Chamber continued its role in representing and protecting the interests of the private sector and communicating with the relevant authorities in the state. It sought to solve all the challenges that might hinder the private sector's hoped-for role in the country's development process.

Similarly, the Chamber's Sectoral Committees continued to network and engage with business owners and company representatives to listen to proposals and identify challenges faced by companies in each sector,

working collaboratively to develop effective solutions. Furthermore, the Chamber strengthened its digital structure and developed its programs to modernize the services it provides to the business community and simplify matters for its members and its affiliated companies and institutions.

The Chamber also continued to equip its new headquarters on the "Boulevard" in Lusail, indicating that the transfer to the new building is expected to take place soon.

In 2023, the Chamber issued 92529 transactions (electronic and non-electronic), 46984 certificates of origin, including 40879 electronic certificates and 6105 non-electronic certificates.

It also issued 5 ATA carnet, and 25 TIR Carnets 'Transports Internationaux Routiers or (International Road Transport)', pointing out that the total number of QC members until the end of December reached 84840 members, with 5708 new affiliates joining.

Qatar and Greece ... Close Relations & Promising Future

The State of Qatar and the Hellenic Republic enjoy close and distinguished relations in all fields, especially in the economic and commercial aspects. Both countries are keen to enhance their economic and trade ties at all levels.

Relations between both countries are witnessing a remarkable development in light of the efforts of the two countries to strengthen them in various fields and in line with the interests of the two friendly countries.

This is evidenced by meetings between officials in both countries and the exchange of high-level official visits, in addition to the number of agreements and MOUs signed between them in various fields.

Joint effort is also being made in other fields with a view to broadening the scope of bilateral cooperation through the exploration of possibilities for the two countries to fully exploit the existing potential, which is abundant on both sides.

Last year, the two countries' bilateral trade amounted to QR269mn compared with QR283mn in 2022.

As for the mutual investments, there are about 41 Greek companies operating in Qatar with local partners and 6 Greek companies with full ownership. Greek companies in Qatar are active in various fields such as trading, contracting, communication, consultancy, painting manufacturing, real estate, and others.

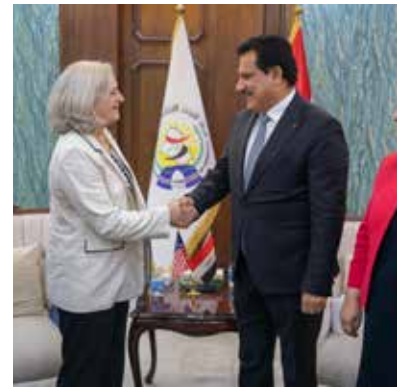

اتحاد الغرف التجارية العراقية Federation of Iraq Chambers of Commerce

The Federation of Iraqi Chambers of Commerce is a leading professional economic organization established under Law No. (43) of 1989. Its mission is to organize and promote private economic and commercial activities while supporting their role in economic development. It is one of the largest economic organizations in Iraq, overseeing 18 commercial chambers across all provinces, including three chambers in the Kurdistan Region (Erbil, Sulaymaniyah, and Dohuk).

Features of the Federation

- It enjoys legal personality and financial and administrative independence.
- It is managed by the Federation Council, which includes the presidents of the chambers of commerce.
- The Federation is represented by an elected president chosen by its council members.

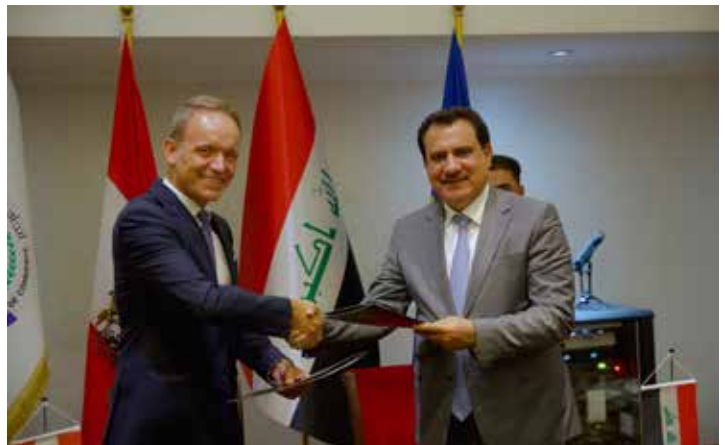

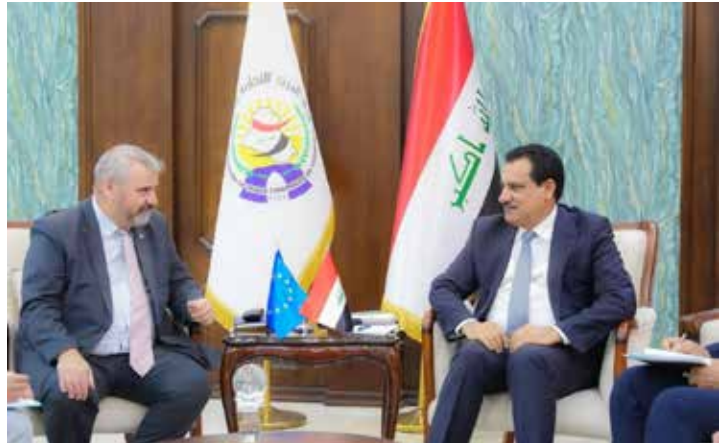

اتحاد الغرف التجارية العراقية

Federation of Iraq Chambers of Commerce

Key Achievements of the Federation

- International Relations: Signed agreements with global chambers and participated in joint chambers.
- Economic Events: Organized conferences and forums to promote trade and investment.
- Trade Exhibitions: Hosted Iraqi pavilions and supported local and international trade fair participation.
- Private Sector Support: Offered programs and consultations for entrepreneurs and SMEs.
- Chamber Restructuring: Improved administrative performance and collaboration among chambers.
- Policy Contributions: Helped draft economic laws and provided recommendations to improve business conditions.
- Arab Unity: Promoted Arab economic integration through joint initiatives.
- Global Partnerships: Collaborated with international organizations and launched training programs.
- Crisis Management: Supported traders during crises like COVID-19.
- Kurdistan Relations: Strengthened trade ties between the Kurdistan Region and other provinces

Federation Goals

1. Fostering cooperation with Arab commercial and industrial chambers to promote trade exchanges and contribute to Arab economic unity.
2. Building relationships with foreign chambers and associations while participating in Arab-foreign joint chambers.
3. Participating in local and international exhibitions and trade events in coordination with relevant authorities.
4. Contributing to forums, conferences, and seminars focused on developing and promoting trade.

ARAB-HELLENIC CHAMBER OF COMMERCE & DEVELOPMENT

The Chamber

The Arab-Hellenic Chamber of Commerce & Development is a non-profit organization established by Greek Law No. 990, on December 1st, 1979, followed by Presidential Decree No. 421 of April 1981, and operates under the umbrella of the Ministry of Economy, Development and Tourism, in coordination with the Union of Arab Chambers, in cooperation with the Council of Arab Ambassadors accredited to Greece and with all the Arab Federations and Chambers of Commerce. Its Head Office is located in Athens, Greece. The scope of its business activities covers Greece and the whole of the Arab world.

Objective

The objective of the Chamber is to develop and promote economic and trade relations between Greeks and Arabs in all business sectors, mainly Construction, Industry, Agriculture, Energy, Technology, Tourism and Education.

Primary Goals

- The Arab-Hellenic Chamber works towards developing new Joint Ventures and partnerships between the two sides and encouraging the flow of investments between Greece and the Arab World.
- It also works alongside Federations and Chambers of Commerce towards elevating the trade balance between Greeks and Arabs.
- Based on its contacts, information database and networking expertise, the Chamber works towards assisting in bringing the Greek and Arab business communities together, through exchange of information, experience and know-how.

Activities

- Organizing well-planned B2B meetings between Greek and Arab businessmen, activities which are complimented with the publication of informative brochures for each delegation involved.
- Holding and co-organizing business events, Forums, Conferences, Fairs, Exhibitions and Workshops in Greece and in the Arab world.

Publishing trade bulletins, reports, statistical data and related economic and trade activities between Greece and the Arab world.

- Providing update information to Greek and Arab businesses on the existing business opportunities from both sides through the publication of regular bulletins.
- Hosting and participating in related cultural activities and cross-cultural workshops.

Services

- Publishing periodical reports and bulletins in English, Greek and Arabic on the latest business opportunities and news.
- Attending to the members' requests for updated data, contacts and information about conducting business in Greece and the Arab world.
- Checking and reviewing trade certificates, export documentation to the Arab world as well as undertaking the translation of related trade documents.

The Arab-Hellenic Chamber of Commerce and Development is proud of its long-standing relationship with its member-companies and it shall continue to present activities, events and services of the highest standards and to be supportive of the business communities in the Arab world and Greece.

WADI DAYQAH MAIN & SADDLE DAMS, OMAN

The tallest dam and one of the region's most important projects implemented by the Sultanate of Oman to ensure sustainability of water resources. The largest flow into the wadi until the time of tender was recorded in the year 1982, which exceeded 5,000 m³/sec.

PACIFIC LNG PIPELINES, AUSTRALIA

The entire 530km high pressure main gas transmission pipeline became a single, continuous structure linking Curtis Island with the Condabri gas fields.

www.ccc.net

CCC is a globally diversified company specializing in Engineering and Construction. Since its formation in 1952, CCC has become one of the leading international contractors. CCC employs over 31,000 qualified men and women embodying over 60 nationalities.

CCC's diverse portfolio captures all aspects of the Engineering, Procurement and Construction (EPC) value chain for:

Energy & Chemicals | Construction Works | Environmental | Heavy Civil & Marine Works | Buildings | Roads & Infrastructures | Metro Construction | Power & Water | Renewable Energy | Dams | Harbors | Airport Terminals & Runways

We embrace our role in promoting long term sustainable value. We understand that CCC's ability to grow and prosper depends on the existence of prosperous economies, inclusive societies, and a sustainable natural environment. We go above and beyond to fulfill our sustainability goals, promote sustainable construction, reduce environmental impacts, safeguard employees' well-being, develop their capabilities, enhance business transparency, and encourage community engagement.

ABU DHABI PLAZA, KAZAKHSTAN

A 500,000 m³ mixed-use commercial and residential towers, five-star hotel, and mall in the heart of Astana, the capital of Kazakhstan. As of 2022, the tallest tower of Abu Dhabi Plaza at 320 meters (75 floors) is the tallest building in Kazakhstan and Central Asia.

The project was awarded the **LEED Silver certification**.

FACULTY OF ISLAMIC STUDIES, QATAR

World record holder for the erection of the world's highest freestanding scaffold (82m), highest freestanding scaffolding staircase (56m), and highest freestanding scaffolding loading bay (56m).

A landmark 3,100 ton convex dome shaped complex roof structural steelwork linked with two minarets.

RIYADH METRO, SAUDI ARABIA

One of the world's biggest metro projects.

2 Lines, 63km Mainline Track, 20km Depot Track, 38 Stations. The new lines will feature stations powered by renewable energy and fully automatic trains.

The King Fahd Abdullah Financial District (KAFD) Main Station was designed by the renowned Zaha Hadid Architects.

The project has been awarded the **LEED Silver certification**.

THE NORTH FIELD SOUTH (NFS), QATAR

The North Field South (NFS), together with the North Field East (NFE) project, include one of the largest CO₂ capture and sequestration facilities and constitutes an important step towards achieving Qatar Energy's target of more than 11 MTPA of CO₂ capture and sequestration by 2035.

BB Energy

“ BB Energy supports the global energy system by responsibly trading traditional, transitional and renewable energy ”

BB Energy

BB Energy is among the world's leading independent energy trading companies, with over 50 years' experience in energy trading, operations, chartering, logistics, storage, refining, and retail. Our diversified portfolio cuts across many segments of the energy industry—from trading crude oil and petroleum products to natural gas and renewables. In the last financial year, BBE traded in excess of 25 million metric tonnes (MT) of crude oil, petroleum products and liquid gases.

We support the global energy system by responsibly trading traditional, transitional and renewable energy. By doing so we aim to empower the people, communities and businesses that need access to energy. We firmly believe access to energy and responsible growth go hand in-hand and our capabilities help progress the world's energy transition, while providing the vital resources needed by communities today.

People and Culture

Our unique entrepreneurial culture, backed by our global reach, allows us to support our partners and customers across the energy value chain, earning their trust through our integrity and reliability.

With global operations anchored out of six key trading hubs in London, Dubai, Singapore, Houston, Brussels and Geneva, BB Energy has a global network of nearly 340 employees in a dozen offices across five continents and a total of 500 employees including our downstream retail business.

Our growing team is a dynamic mix of seasoned professionals and newer recruits from a range of backgrounds, including other industries and recent graduates. The Group's high employee retention rate has allowed us to develop extensive experience and nurture long term relationships with our trading and financial partners built on respect and trust.

Strategy and Growth

Growth and diversification remain cornerstones of BB Energy's business strategy as we support an energy ecosystem capable of trading and supplying traditional, transitional and renewable energy to the businesses and communities that need it most.

Geographic expansion is central to our strategy, where we leverage our extensive global network to thrive in high-potential markets. By establishing a presence in key regions, we not only broaden our reach but also deepen our understanding of local energy needs and market dynamics. This allows us to tailor our offerings to meet the diverse demands of communities worldwide, positioning ourselves as trusted partners in their energy journey.

In parallel, BB Energy pursues product diversification, recognising the evolving nature of energy markets and the increasing demand for cleaner alternatives. By

expanding our product portfolio to include renewable energy sources, transitional fuels, and emerging technologies, we position ourselves to capture the opportunities created by the energy transition, driving innovation and sustainability across the value chain.

Strategic acquisitions and investments also play a pivotal role in our growth strategy, enabling us to enhance our capabilities, expand our market presence, and capture synergies. Through targeted investments in midstream and downstream assets, we strengthen our position as a leading player in the global energy trading landscape while creating value for our stakeholders.

At the heart of our approach lies a belief that access to energy drives responsible growth and social development. By balancing the long-term goals of sustainability with the immediate needs of communities, we strive to create a more equitable and resilient energy future.

Trading

Our trading business primarily focuses on crude oil and its derivatives, as well as transition fuels such as LPG and other specialised products.

Our strategically located trading offices in London, Dubai, Singapore, Houston, Geneva, and Brussels serve national oil organisations, major oil corporations, independent trading companies, and refineries around the world.

The Group's goal is to maintain a leading position in key markets and continue global growth. The US and Arabian Gulf remain major sources of supply, while the Mediterranean, including North African countries, continues to be a significant area for deliveries.

Whether through spot purchases or term contracts, we deliver the right energy products to the right customers reliably and efficiently.

Product Diversification

From our historical portfolio of crude oil and petroleum products, we are now covering all major components of the barrel and have been trading LPG and LNG in the last few years. Our downstream retail business now operates across Turkey, Rwanda and Morocco and we have investments in downstream energy companies in Bangladesh and Pakistan.

We have increased our portfolio of crude oil by trading different qualities. We have also expanded our presence in Ultra Low Sulphur Diesel (ULSD) and started gasoline blending and trading in North West Europe. We started trading LPG in 2015 by securing term contract on the back of an investment in an import terminal in Bangladesh with an annual throughput capacity of 150,000 mt and are now a major supplier of LPG to Turkey.

Renewable Energy

Our purpose is energising growth by responsibly delivering traditional, transitional and renewable energy to the people, communities and businesses that need it most. In the context of the energy transition, our Renewable Energy Division is central to this mission.

BB Energy's Renewable Energy Division was established in 2020 to invest either directly or indirectly in renewable energy opportunities such as solar generation, battery storage, EV charging infrastructure and carbon emission reduction projects.

Since BB Energy acquired Solarcentury Africa in March 2021 it has become a key part of BB Energy's renewable ambition and we now have over 800 MW of renewable projects under development through exclusive agreements with an additional 4 GW of solar projects in the pipeline.

Solarcentury Africa is developing a mix of behind the meter solar plants, which will help to directly reduce the carbon emissions of private customers and merchant plants, which generate power that can be traded on the electricity grid, through our membership of the Southern African Power Pool.

Carbon credit creation and trading is another important pillar of our renewable offer. We finance and manage environmental activities which generate carbon credits while our carbon product trading team creates value by trading the credits created across both the mandatory and voluntary carbon markets through both spot and term contracts.

Biofuels are also becoming more important to the world's energy needs and in 2023, BB Energy's London and Singapore offices now frequently trade consignments of biofuels such as Used Cooking Oil Methyl Ester, a biofuel that is produced from 100 per cent used cooking vegetable oil. In light of the projected growth of the biofuel market BB Energy's UK, Belgium and Asian offices have now secured their International Sustainability and Carbon Certification (ISCC), a voluntary scheme that is applicable to the bioeconomy and circular economy for bio-based products.

GEORGE ALEXANDER GROUP OF COMPANIES

A group with dynamic presence

George Alexander has been active in the field of wild animals and birds since 1985. Dr Alexander is quite successfully involved, both in Greece and abroad, mainly in trading activities as well as in the provision of consultancy services in the field of his expertise having created an extended network of associates and always aiming to new forms of cooperation always characterised by the prestige and consistency of the Alexander Group of Companies.

In 2005 the Group GEORGE ALEXANDER established KITHARON PLC. It is a prototype enterprise involved in the slaughter, standard packing and marketing of animal and poultry meat.

G.A. was established in 2002 and registered in Portugal. Its scope of activities is the production and marketing of biologically produced veterinarian medicines.

The company was established in 2004 with the trading activity as its main objective. The company markets a full range of cosmetics products made of natural ingredients and leather products of wild animals' skins (deer, roebuck, ostrich, crocodile, snake, boar).

Construction company based in Alexandria, Egypt. The company was established in 2015.

A Real Estate, Construction and Tourism company based in Greece.

-  Premium Rates in all our Events
-  Free Promotion and Exposure in our Publications
-  Invitations to Exclusive Business Events
-  Business Delegations to the Arab World

Why become a member of the Arab-Hellenic Chamber:

NETWORKING OPPORTUNITIES

 **Our members enjoy networking opportunities by participating in a wide range of events and activities:**

- Forums, Conferences
- Workshops and Roundtables
- B2B Meetings (live and virtual)
- Business Delegations to the Arab world
- Exhibitions

INFORMATION

 **Our Chamber publishes:**

- ~ Bimonthly Economic Bulletin exclusive for our members with upcoming events in the Arab world
- ~ Bimonthly Magazine with news of our members and other events and activities of our Chamber in Greece and the Arab world, distributed electronically and in hard copy format to a strong database of recipients in Greece and the Arab countries, to the Arab Federations and Chambers of Commerce and to professional business societies
- ~ Directories of its Members in Greece and the Arab world

 **Our Chamber also provides:**

- ~ Information on Companies in the Arab World upon request of its members
- ~ Statistical Information on Trade Balance between Greece and the Arab World in various sectors
- ~ Checking of commercial documentation related to Greek exports to the Arab world and rendering services to its members by undertaking, on their behalf, the whole legalization procedure
- ~ Translation from/to Greek, Arabic and English and vice versa
- ~ Introducing of business proposals from the Arab or Greek companies looking for contacts in Greece or in the Arab countries

 **Exposure**

Our members can have exposure by appearing in our magazine, our Directories, or when they sponsor our events.

IMAR ENGINEERING CONSULTANTS AND CLIMATE SOLUTIONS GLOBAL:
SILVER SPONSORS AT THE 13TH ARAB-GREEK ECONOMIC FORUM

For decades, since its establishment over 30 years ago, Imar Engineering Consultants has achieved significant milestones through its diverse consultancy services in urban development, sustainability, and related fields. With a steadfast commitment to a greener future, Imar aims to create a balance between economic development and environmental preservation. Imar adopts a holistic approach to delivering sustainable solutions across its various areas of operation, focusing on enhancing resource efficiency, reducing energy and water consumption, and minimizing carbon emissions. It plays a pivotal role in supporting the development of modern infrastructure that aligns with sustainable development goals by integrating the latest technologies to optimize environmental performance.

**WORLD'S MOST
SIGNIFICANT
ENVIRONMENTAL
TRANSFORMATION
PROJECTS:**

**THE SAUDI
INITIATIVE TO
PLANT 10 BILLION
TREES.**

One of Imar's most notable achievements in sustainability is the adoption of innovative solutions in the construction sector. The company adheres to green building standards that are in line with the best international practices, significantly reducing negative environmental impacts across all phases of project development. Imar also contributes actively to the protection of natural resources by promoting the circular economy, aiming to reduce waste, recycle materials, and reuse them in new projects—thus reinforcing resource sustainability. Moreover, Imar takes pride in leading the coalition responsible for conducting scientific, technical, and strategic studies for one of the world's most significant environmental transformation projects: the Saudi initiative to plant 10 billion trees.

»»» Recognizing the opportunities for expanding its services in environmental and sustainability sectors within Saudi Arabia and the broader region, Imar decided to launch Climate Solutions to effectively contribute to addressing the increasing challenges of climate change. Climate Solutions focuses on delivering knowledge-based,

innovative solutions, specializing in environmental studies, the green economy, carbon certification and registration, and leveraging technologies such as remote sensing, geospatial data, and AI-driven big data management. This sector is an essential tool in supporting the transition to a low-carbon economy, playing a crucial role in mitigating the environmental impacts of climate change.

The strategies developed by Climate Solutions stand out due to their unique adaptability to various market needs, providing tailored solutions designed to meet the specific requirements of each organization. Through meticulous assessments of corporate carbon footprints, Climate Solutions delivers customized strategies that assist organizations in achieving their environmental objectives efficiently. These solutions not only enhance a company's environmental performance but also ensure compliance with international sustainability standards, strengthening their competitive edge in an increasingly sustainability-conscious global market.

Through these innovative solutions, companies can seize new opportunities in the emerging carbon economy—a rapidly evolving sector driven by heightened global awareness of climate change. Climate Solutions equips companies with the tools necessary to navigate this evolving economy, enabling participation in carbon markets and securing carbon credits, thus increasing their capacity to mitigate environmental impacts. In doing so, these companies can play a proactive role in combating climate change and contribute to building a more sustainable future.

Interview with Archirodon Group N.V. CEO – Hazem Sadek

In this special edition of our magazine, we are honored to interview the new CEO of ARCHIRODON GROUP N.V., Mr. Hazem Sadek. Mr. Sadek has been serving the Group for 36 years and, before he was appointed CEO in October 2024, he served as Chief Operating Officer since 2016 and President of AIC Group since 2013. ARCHIRODON is one of the oldest Greek companies operating in the Arab world and, through its transformative infrastructure projects, it has assisted in the development of the Arab countries. In alignment with the latest sustainability standards, ARCHIRODON applies the latest technologies to ensure high-level results and long-term resiliency in a changing world. The interview below sheds light on Mr. Sadek's vision and future plans for ARCHIRODON Group.

1. With over 65 years of history, how has Archirodon's Greek heritage shaped its success, especially in the Arab world, and how does it continue to build long-lasting relationships in the region?

Archirodon's success over the past 65 years is rooted in a combination of technical expertise, operational excellence, and strong partnerships. Our ability to consistently deliver world-class projects has established us as a trusted name in the construction industry.

While our Greek heritage has shaped our ethos, our corporate values of resilience, integrity, and business acumen have defined a global and adaptive approach.

In the Arab world, where we've had a strong presence for decades, we've placed great emphasis on understanding and respecting local traditions, cultures, and business environments. This cultural awareness, combined with our technical capabilities, has allowed us to build long-lasting relationships with governments, clients, and communities.

Ultimately, it's this blend of engineering excellence and cultural adaptability that has enabled us to create infrastructure that not only meets immediate needs but also contributes to long-term regional development and prosperity.

2. What have been Archirodon's most transformative projects in the Arab world, and how have they contributed to the economic and social development of the region?

Archirodon has delivered impactful projects across the Arab world, enhancing regional connectivity, energy security, and economic development. Key highlights include:

Tahya Misr 1 Quays and Basin for New Container Terminal in Damietta Port, Egypt: As part of the expansion and optimized utilization of the Damietta Port, which is strategically located along the southern shores of the Mediterranean, the new quays and basin constructed

allow for the increased development in the region and trade between Europe and Egypt as a gateway for many Arab and African countries

Shura Bridge Red Sea Development, KSA: Belonging to the world's most ambitious regenerative tourism project, focused on preserving biodiversity and establishing a luxury destination. Construction practices ensured marine life protection and sediment control, supporting Saudi Arabia's goals for environmental preservation and economic diversification.

Ras Al-Khair Desalination Plant, KSA: The world's largest hybrid desalination plant, serving 3.5 million people in Riyadh, features innovative engineering and addresses critical water and energy needs.

Khalifa Port, UAE: The GCC's first semi-automated port, supporting Abu Dhabi's position as a trade hub, includes environmentally conscious marine infrastructure, such as breakwaters designed to protect marine ecosystems.

Palm Jumeirah, UAE: This iconic project transformed

Dubai into a global tourism destination, with Archirodon constructing the 12km crescent breakwater and key infrastructure.

3. How does Archirodon maintain its trusted partnerships with governments and clients in the Middle East, and what role does it play in enhancing local content (collaboration with local suppliers & workforce development)

At Archirodon, trust is the cornerstone of all partnerships. We build and maintain this through consistent performance, transparency, accountability, and a clear alignment with client goals. Our robust internal governance framework ensures we operate with the highest standards of integrity and professionalism.

A key aspect of our approach is adding in-country value and engaging with local communities. We prioritize working with local partners and suppliers who meet our strict HSE and Quality standards, ensuring that

our projects contribute to the economic and social development of the regions we serve. Through direct and indirect employment opportunities, we help generate income locally, create specialized know-how for subcontractors, and open new market opportunities for suppliers of locally sourced materials.

We also invest in workforce development through training programs and knowledge transfer. Beyond economic contributions, we are committed to supporting the communities where we work by contributing to community health, well-being, and environmental initiatives that promote sustainable development.

4. As the new CEO, what is your vision for Archirodon's future, and how do you plan to balance growth in traditional infrastructure sectors with expansion into emerging markets and technologies?

Archirodon's strength lies in maintaining leadership in its core sectors such as marine infrastructure, government facilities, energy projects, and dredging and pipelaying. These areas remain vital, particularly in regions like the Middle East, North Africa, and the CIS, where demand for large-scale infrastructure continues to grow.

For the future, our priority is to sustain excellence in these core industries and regions while staying ahead of emerging trends and market opportunities. Innovation and technology play a central role in this effort. We are

investing in advanced tools, processes and partnerships to ensure we remain at the forefront of these changes.

At the same time, we are actively expanding into new and promising sectors, such as floating offshore wind and carbon capture and storage, leveraging our expertise to support the energy transition. Building on our success with solar park investments, we are also expanding our focus on environmental and renewable energy projects.

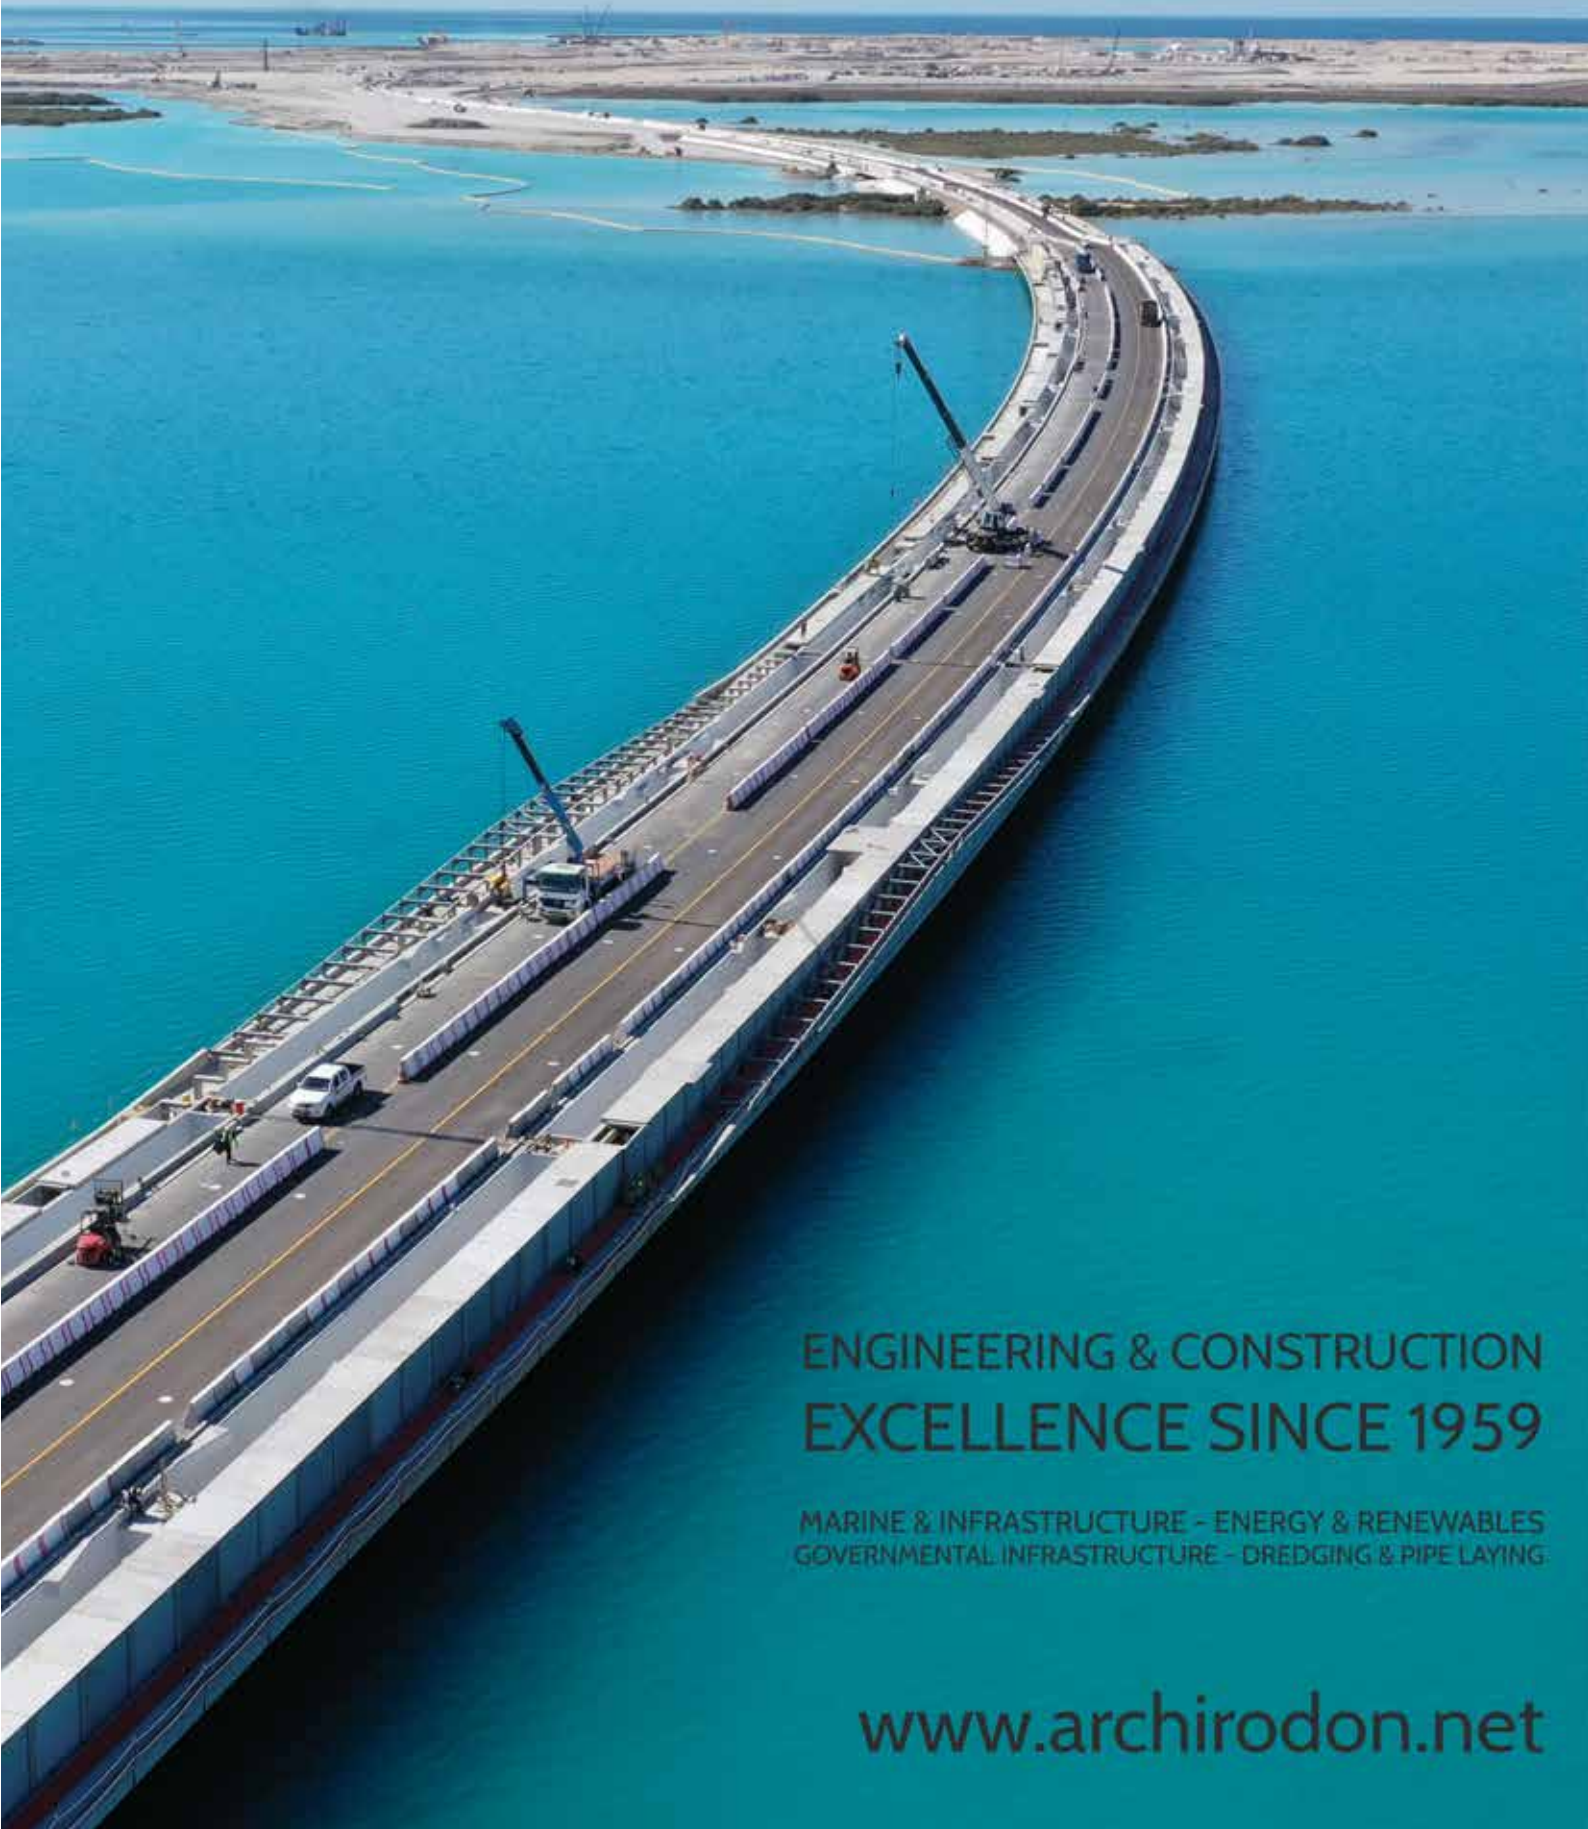

By combining our traditional strengths with an emphasis on sustainable energy and decarbonization, Archirodon is well-positioned to deliver forward-looking infrastructure solutions. This balance ensures not only the continued growth of our business but also meaningful contributions to a more sustainable and innovative future.

5. How is Archirodon addressing global expectations around sustainability and environmental concerns while ensuring long-term business resilience?

Archirodon addresses global expectations around sustainability by integrating robust environmental management practices into our operations. Our approach focuses on monitoring and managing environmental impacts, including air emissions, waste, water consumption, and biodiversity preservation. In particular, our expertise in biodiversity protection and water management serves as a key differentiator, setting us apart in the industry.

Resource efficiency and circularity are emerging priorities for us, reflecting our alignment with client requirements and global standards. For instance, certifications like LEED, BREEAM, CEEQUAL, QSAS, and others are underway for some of the projects we are working on such as Amaala Village and NEOM in KSA.

We also integrate environmental and social metrics into our reporting systems, ensuring transparency and accountability while fostering a culture of environmental responsibility through targeted training programs. By aligning with global sustainability trends and maintaining agility to adapt to emerging challenges, we enhance operational efficiency and ensure Archirodon's long-term business resilience in a rapidly evolving market.

Shaping the Future of Real Estate Development in Greece

City Dynamics SA, a proud member of the Tanweer Group, was founded by Mr. Andrew Samaan and has, in just three years, transformed from a promising startup into a significant player in the Greek real estate market. With an impressive growth trajectory, the company has nearly doubled its assets and established a robust portfolio, embodying a commitment to quality, innovation, and strategic investments.

Since its inception, City Dynamics has focused on high-impact investments in commercial buildings, storage facilities, and luxury residential properties, each selected for its prime location and growth potential. By leveraging strategic acquisitions, meticulous project management, and strong partnerships, City Dynamics has created a foundation that's both resilient and future-focused. The company's adaptable, forward-looking approach is reshaping spaces and setting new standards in the real estate industry.

Mr. Samaan emphasizes the company's mission:

“City Dynamics seeks to shape the future of urban living and workspaces through sustainable innovation, smart living systems, ethical standards, and a philosophy of constant evolution. We create spaces that harmonize luxury with eco-conscious design, integrating smart home and office systems, premium finishes, and energy-efficient features to offer an unmatched living experience.”

To date, City Dynamics has successfully delivered state-of-the-art office spaces and multifunctional commercial buildings. Currently, it is developing a luxury residential building on the Athenian Riviera, setting a new standard for high-end, sustainable living. With a keen eye on property opportunities in Greece, particularly in the Attica region, the company's expert team conducts thorough due diligence on every potential project, inviting qualified co-investors to join in when projects meet their stringent quality standards.

Driven by a vision to maximize returns for investors and enhance its portfolio, City Dynamics is committed to building a diverse, high-quality selection of properties that deliver substantial returns while focusing on green, sustainable, and smart building practices. This dedication positions City Dynamics as a transformative force in Greek real estate, continuously pushing the boundaries of innovation and sustainability in urban development.

ONE DROP CLOSER TO THE FUTURE

The Motor Oil Group, with 75% exports to over 75 countries, is implementing the largest energy transition plan in SE Europe.

With investments that reach a total of €4 billion in renewable energy sources, e-mobility, the circular economy, and alternative-renewable fuels, it supports the economy and creates thousands of new jobs.

To ensure a better future for all.

ELSEWEDY ELECTRIC

Interview with Eng. Wael Hamdy Daoud, Vice President of Elsewedy Electric Group

Finalizing the series of interviews with personalities in the energy and construction sectors leading up to the “13th Arab-Hellenic Economic Forum,” we are pleased and honored to have with us Eng. Wael Hamdy Daoud, Group Vice President of Elsewedy Electric. Eng. Wael, who is also a speaker in our Forum, introduces the legendary company from its inception to its current international status, all the while describing the Group’s sustainability initiatives and social corporate responsibility activities, including the Elsewedy Academy which empowers young Egyptian and Arab engineers.

1. Dear Eng. Wael, thank you for being with us in this interview. Elsewedy Electric Group is an Egyptian business giant in the energy and infrastructure field, with a global footing. We would appreciate it if you could tell briefly of your journey, early challenges and future plans.

My journey with Elsewedy Electric has been an incredible one, filled with both challenges and triumphs. The early years were marked by a strong entrepreneurial spirit and a relentless pursuit of excellence. We faced numerous challenges, from securing financing to navigating complex regulatory environments. However, through perseverance, consistency, and a steadfast commitment to our vision, we overcame these challenges and established a strong foundation for the Group’s future growth.

Looking ahead, our focus remains on driving sustainable growth and expanding our global footprint. We aim to leverage emerging technologies, such as digitalization and renewable energy, to create innovative solutions that address the evolving needs of our customers. By fostering strong partnerships, investing in talent development, and embracing a culture of continuous improvement, we are confident in our ability to shape the future of the energy and infrastructure sector.

2. Your Group is active in more than five business lines (wire, cable and accessories, electrical products, engineering and construction, digital solutions and infrastructure investments). To ensure excellent quality in all domains successful leadership is key. Which are your corporate philosophy and values?

Elsewedy Electric's corporate philosophy centers on achieving excellence and sustainability in the energy sector. This is reflected in our commitment to delivering efficient, integrated energy & infrastructure solutions with exceptional expertise and service. The company values integrity, ownership, collaboration, customer focus, social responsibility, and empowering future generations. *Our focus on innovation and leveraging over 85 years of experience further solidifies our position as a leader in the industry.*

At Elsewedy Electric, we are guided by a corporate philosophy centered on achieving excellence, innovation, and sustainability. Our core values of integrity, ownership, collaboration, customer focus, social responsibility, and empowering future generations underpin our approach to business. We believe that by upholding these values, we can create long-term value for our stakeholders and contribute to the sustainable development of the communities we serve.

Our commitment to quality is unwavering. We invest heavily in research and development, state-of-the-art manufacturing facilities, and rigorous quality control processes to ensure that our products and services meet the highest industry standards. By continuously striving for excellence, we aim to solidify our position as a global leader in the energy and infrastructure sector.

3. Sustainability, to which we dedicate our 13th Arab-Hellenic Economic Forum, has by now become not only a requirement but a prerequisite for the continuation of the existence of our planet and peoples. Your Group complies with the required sustainability standards and is very careful about its carbon footprint. Could you give us a glimpse of your CSR activities?

In 2023, Elsewedy Electric achieved a 44% decrease in scope 1 and 2 carbon emissions intensity compared to 2022. The company's 21 facilities reported a 44% reduction in water intensity and a 32% reduction in energy intensity. Iskraemeco Slovenia, a subsidiary of Elsewedy Electric, began using solar PV panels with a capacity of 870 kW. During its first month, the plant generated 1,500 kWh. The company has integrated a climate risk assessment into its decision-making process, with product design and raw material sourcing guided by life cycle assessment results and optimization. Some of Elsewedy Electric's CSR activities include:

4. In 2011, you established Elsewedy Technical Academy (STA), with the aim of providing technical education and vocational training to young Egyptians and Arabs from the region. Please tell us a few words about it, its achievements so far and its goals/targets?

Elsewedy Technical Academy - STA, is affiliated to Elsewedy Electric Foundation (NGO), provides 3 years' secondary level education adopting dual education model combining 80% training vs 20% theoretical, in accordance to international standards under the auspices of the Ministry of Education & Technical Education.

STA offers a customized Technical Education and Training for the major industries following the latest standards. It also provides training programs to exiting work force and unemployed youth.

Elsewedy Technical Academy

Benban Solar Park - Egypt

Achievements

- LEADING TVET IN EGYPT WITH 12+ YEARS OF EXPERIENCE
 - 6 SCHOOLS in 5 GOVERNORATES (3 TSS & 3 ATS)
 - 2400+ STUDENTS ENROLLED
 - 20+ DIFFERENT STUDY FIELDS
 - 2000+ GRADUATES
 - 3 INTERNATIONAL CERTIFICATIONS

 - 50+ PARTNERSHIPS
 - 80% EMPLOYABILITY RATE
 - ISO 21001:2018 CERTIFIED FROM TUV NORD GERMANY
 - ENROLLED FIRST CLASS OF PWD
 - ESTABLISHED FIRST CENTER OF EXCELLENCE IN PORTSAID GOVERNORATE
- **Goals**
- › Empower the Egyptian economy by educating and upskilling the youth.
 - › Provide industry-relevant technical training programs.
 - › Become a leading provider of technical education in the Middle East.

5. On October 23, 2024, you signed a strategic memorandum of understanding with the Iraq Development Fund in Baghdad, under the auspices of Prime Minister Engineer Muhammad Shia' al-Sudani. Please tell us a few words about this partnership, and what it means for the economy and society of Iraq, and the business scope of your Group.

This strategic partnership between Elsewedy Electric and the Iraq Development Fund represents a significant commitment to the economic development and industrialization of Iraq. By combining the expertise and resources of both partners, we aim to support in the creation of a more sustainable and diversified economy for the country by focusing on the strategic projects, localizing industries, plans to develop the education and skilled workforce and leveraging on latest technologies for project execution and finally emphasizing on sustainability.

6. Elsewedy Electric Group is operating a portfolio of wind farms in Greece. What has your experience been so far, which challenges you have faced, if any, and how do you envision your future projects in the country?

Greece Wind Farm - Greece

Julius Nyerere Hydropower Plant

Elsewedy Electric's experience with wind farms in Greece has been positive, although the company has not explicitly detailed specific challenges encountered. They are optimistic about future projects in the country, aiming to expand their capacity in wind, solar, and battery storage.

The company's preference for renewable energy stems from investment opportunities and a commitment to sustainability. While their solar projects, particularly in Egypt and other African countries, have been successful, they recognize the limitations of full reliance on solar power due to storage costs.

The company benefits from government incentives like tax exemptions and tariff reductions, but they advocate for further regulatory reforms, such as auction systems and expanded energy markets, to accelerate the adoption of renewables.

Reference to projects done via the following [LINK](#)

7. How has the current situation in the Middle East affected your Group's business activity in the wider region?

The geopolitical landscape in the Middle East is undeniably complex and ever-evolving. However, Elsewedy Electric has consistently demonstrated resilience and adaptability in navigating these challenges.

While geopolitical tensions can sometimes create uncertainties and logistical hurdles, our strong local presence and long-standing relationships with key stakeholders have enabled us to mitigate potential risks. We prioritize diversification of our operations, ensuring a balanced portfolio across various countries in the region.

Furthermore, our focus on sustainable and innovative solutions aligns with the growing demand for clean energy and infrastructure development. By offering efficient and reliable solutions, we contribute to the economic growth and stability of the region.

While challenges may persist, we remain optimistic about the long-term prospects of the Middle East. Our commitment to excellence, coupled with a strategic approach, positions us to capitalize on emerging opportunities and continue our growth trajectory in this dynamic market.

The Kingdom of Saudi Arabia Celebrates its 94th Anniversary

On September 25th, amidst numerous political, and media personalities and other esteemed guests, the Kingdom of Saudi Arabia celebrated its 94th Anniversary of its National Day at a central hotel in Athens. The National Day marks the unification of the Kingdom in 1932 by King Abdulaziz bin Abdulrahman Al-Saud under the name “The Kingdom of Saudi Arabia”.

In his speech, the Ambassador of the Kingdom and Dean of the Council of Arab Ambassadors in Greece, H.E. Dr. Saad Alammam, mentioned the close and friendly relations of his country with Greece since the establishment of the two states’ diplomatic ties, as well as the fact that the Saudi-Greek relationship is now stronger than it has ever been, especially with the formation of the Saudi- Hellenic Strategic Partnership Council, chaired by His Royal Highness Prince Mohammed bin Salman bin Abdulaziz Al Saud, Crown Prince and Prime Minister, and by the Greek Prime Minister, Mr. Kyriakos Mitsotakis.

In his address, H.E. Dr Alammam also highlighted the cultural ties between Greece and Saudi Arabia, hinting at the Saudi Cultural Week which took place from September 27th to October 1st at Zappeion Hall.

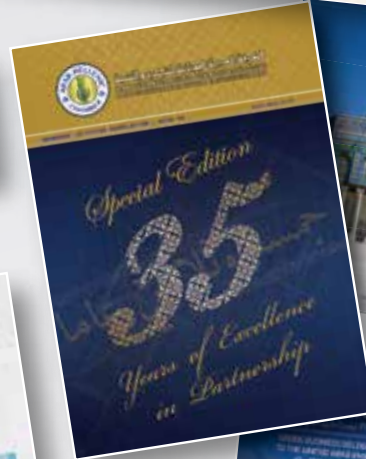

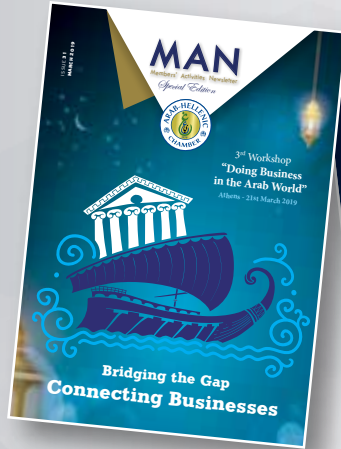

In this celebratory exhibition, the Kingdoms showcased the Saudi heritage and culture via handmade artisanal, visual artists and authentic culinary experience.

We, at the Arab-Hellenic Chamber, would like to congratulate the Government and people of Saudi Arabia for their progress of neck breaking speed and their achievements of the “Saudi Vision 2030,” and wish them all the more success in the decades to come.

Publications of the ARAB-HELLENIC CHAMBER

Kuwaiti Music Event

His Excellency the Ambassador of State Kuwait, Mansour Al-Alolaimi, and his spouse Mrs. Kholoud Ahmed, hosted a distinguished musical event over two days at the Ambassador's residence, dedicated to celebrating the contributions of Kuwaiti women in the arts. The event sought to highlight the significant role of Kuwaiti women in the artistic and musical fields.

On the first day, Mrs. Kholoud Ahmed welcomed members of the Women's International Club, a prestigious global organization committed to fostering cultural exchange and strengthening ties among women from various countries. On the second day, His Excellency the Ambassador and his spouse Mrs. Kholoud Ahmed hosted LAASA group. The event was graced by the presence of numerous Arab and foreign ambassadors, alongside officials from the Greek government, underscoring its diplomatic significance.

This cultural initiative reflects Kuwait's commitment to promoting cross-cultural dialogue and showcases the essential contributions of Kuwaiti women to the global arts scene.

His Highness Sayyid Nazar Aljulanda Al-Said, new Omani non-resident Ambassador to Greece

On 8 October 2024, His Highness Sayyid Nazar Aljulanda Majid Al-Said, presented his credentials as non-resident Ambassador of the Sultanate of Oman to Greece to Her Excellency Katerina Sakellaropoulou, President of the Hellenic Republic.

After the ceremony, His Highness and the President engaged in a warm and cordial conversation touching upon the existing friendly relations between Oman and Greece.

His Highness the Ambassador is a familiar figure at his country's Ministry of Foreign Affairs. His outstanding career extends over 25 years in various positions at the Ministry of Foreign Affairs of Oman: In 1997, he started his government appointment as First Secretary at his country's MFA. Gradually he was promoted to various diplomatic postings in several countries, among which was his assignment as an Ambassador to Indonesia (2013). As of 2022, he is serving his country as Ambassador-Designate to the Italian Republic and non-resident Ambassador to Bosnia and Herzegovina, Albania, Romania, San Marino and Greece. HH Ambassador Al-

Said is also designated Non-Resident Ambassador to Malta and Permanent Representative of the Sultanate of Oman to the UN Agencies in Rome.

He holds a degree in Civil Engineering from Strathclyde University, UK. He is married, has nine children and is a passionate reader and golfer.

On 9 October 2024, we, at the Arab-Hellenic Chamber, felt very privileged and deeply honoured by His Highness' visit to our premises where he was received by Rashad Mabger, the Secretary General with who he had a cordial discussion on numerous issues.

On this occasion, we would like to seize this opportunity to wish Ambassador Nazar all the best in his future endeavours and every success in his diplomatic mission in Italy and other countries under his jurisdiction.

In closing, we would also like to reaffirm our commitment to promote Greek-Omani relations in all business domains.

Welcoming the New Ambassador of the Islamic Republic of Mauritania to Greece

On 8 October 2024, H.E. Mohamed Mahmoud Dahi, Ambassador-designate of the Islamic Republic of Mauritania to Greece, presented his credentials to the President of the Hellenic Republic, H.E. Mrs Katerina Sakellaropoulou. After the ceremony, the Ambassador and the President had a cordial discussion regarding the bilateral relations between Greece and Mauritania.

Mr. Mohamed's distinguished professional journey commenced as a civil engineer and culminated in his appointment as Head of the Dams and National Promotion Projects Division at the Ministry of Rural Development and Environment. Following a series of notable advancements within the Ministry, Mr. Mohamed ascended to the rank of Secretary General at the Ministry of Rural Development and Environment in October 1996. Afterwards, he held several key posts at various ministries.

In 2003 Mr. Mohamed was appointed Ambassador Extraordinary and Plenipotentiary of the Islamic Republic

of Mauritania to Russia, Thereafter, he held the position of Ambassador at the Mauritanian Ministry of Foreign Affairs and Cooperation from November 2011 to 2021. From 2021 to October 2023, he was reappointed as Ambassador Extraordinary and Plenipotentiary of the Islamic Republic of Mauritania to Russia. Since October 2023, he has served as Ambassador Extraordinary and Plenipotentiary of his country to Italy and Permanent Representative of the United Nations Organizations based in Rome. Additionally, he has been designated as Ambassador of Mauritania to Serbia, Greece, San Marino, Montenegro, Croatia, Slovenia, Malta, Albania, and Bosnia and Herzegovina.

Ambassador Mohamed holds a degree from the Rostov Institute of Agricultural Engineering, USSR (1979), and the Rostov Roads and Bridges School, USSR (1985). Throughout his career, he has received numerous prestigious awards and recognitions, including the honour of being decorated as a Knight of the National Order and the recipient of the esteemed CERES medal, presented by H.E. Mr. Edouard Saouma, Director-General of the Food and Agriculture Organization (FAO) in 1985. Ambassador Mohamed is also a published author and has chaired the Boards of Directors of several esteemed Crown corporations. Ambassador Mohamed speaks Arabic, French, Russian and English and in his personal life, he is married with two children.

We, at the Arab-Hellenic Chamber, would like to extend our sincerest assurances to Ambassador Mohamed of our unwavering commitment to fostering Greek-Mauritanian relations across all business sectors and promoting the visibility of Mauritania to the Greek community.

Alexandroupolis at the Forefront of Energy Discussions: Visit of Ambassadors from Arab States to the Alexandroupolis LNG Terminal

On Monday, November 18, the Alexandroupolis Liquefied Natural Gas Terminal welcomed a delegation of Ambassadors and Diplomats from ten Arab countries, including the Arab Republic of Egypt, the Republic of Iraq, the Hashemite Kingdom of Jordan, the State of Kuwait, Lebanon, the Kingdom of Morocco, the State of Qatar, the Kingdom of Saudi Arabia, the Republic of Sudan, and the Republic of Tunisia. Accompanied by the Secretary General of the Arab Hellenic Chamber, the delegation underscored the keen interest from Arab states in exploring new energy connectivity opportunities between the Mediterranean and Europe through Greece, with Alexandroupolis emerging as a vital gas hub.

During the visit, the Ambassadors were briefed on the state-of-the-art technologies employed by the Terminal

and the strict environmental standards adhered to in every phase of its operations. Senior FSRU officials highlighted the innovative nature of the project, which represents a major node in Europe's energy supply chain.

The "Vertical Corridor," a strategic energy initiative linking Greece to Central and Southeastern Europe was in the heart of the discussions. In conjunction with the FSRU Alexandroupolis, which serves as a critical entry point to the Vertical Corridor, a new energy supply route is being created, enabling the safe, competitive and efficient distribution of natural gas from the Mediterranean to Europe. This corridor encompasses not only Greece but also Bulgaria, Romania, North Macedonia, Serbia, Moldova, and Ukraine to the east, as well as Hungary and Slovakia to the west. The Vertical Corridor initiative enhances the region's energy security and provides an alternative pathway to address today's energy challenges, reducing dependence on Russian natural gas and opening new markets for major LNG producers in the Arab countries.

Commenting on the occasion, the Managing Director of Gastrade, Mr. Kostis Sifnaios, stated:

"The visit of the Ambassadors from the Arab states to the FSRU Alexandroupolis provided a valuable opportunity to explore the integration of LNG produced in the Arab world into our Terminal's operations, which

commenced commercial activity on October 1, 2024. The geographic proximity of LNG production units in the Eastern Mediterranean and the Gulf to Alexandroupolis offers significant competitive advantages and lays the groundwork for establishing a robust strategic partnership. We sincerely thank the Ambassadors for the open and constructive dialogue, and we look forward to a long-term, mutually beneficial collaboration with their countries.”

This visit confirms the strong prospects for developing energy partnerships between Greece and Arab countries, reinforcing a shared commitment to a secure, sustainable and diversified energy future for the entire region.

About Gastrade S.A.

Gastrade S.A. was established in 2010 with the mission of designing, developing, operating and managing advanced infrastructure projects for the reception and transportation of natural gas, as well as its storage, liquefaction and regasification. Its activities are guided by the principles of safety, reliability, and economic efficiency, while maintaining a strong commitment to environmental protection and human rights.

Gastrade is the first company in Greece to be granted a license for the operation of an Independent Natural Gas System (INGGS). It has developed and will operate the Alexandroupolis Independent Natural Gas System in Northern Greece, while also developing the Thrace Independent Natural Gas System in the same region.

The project has been co-financed by the European Regional Development Programme of the EU through the Operational Programmes "Entrepreneurship, Competitiveness & Innovation (EPANEK)" and "Environment & Climate Change (PEKA)" within the NSRF 2014-2020 and 2021-2027 respectively.

For more information, you can visit the company's website at www.gastrade.gr or contact the company at info@gastrade.gr.

The Dean of Arab Ambassadors hosted lunch in honor of two esteemed colleagues

On October 30th, the Ambassador of the Kingdom of Saudi Arabia and Dean of the Council of Arab Ambassadors in Greece, H.E. Dr. Saad Alammar, with warm hospitality, welcomed guests to his residence for a festive lunch in tribute to two dear colleagues, the newly-appointed Ambassador of the People's Democratic Republic of Algeria, H.E. Mrs Zaina Benhabouche and the outgoing Ambassador of the Republic of Lebanon, H.E. Mr. Ghady Khoury.

Amid the friendly atmosphere and delicacies served, the Arab Ambassadors, Charges d'Affaires and the Secretary General of the Arab-Hellenic Chamber welcomed the new Algerian Ambassador into her new post and wished her a fruitful and productive diplomatic tenure in Greece.

Afterwards, Dr. Saad Alammar, offered a farewell gift to Mr. Khoury and wished him, on behalf of all, every success and happiness in his new endeavour as his country's representative to the Vatican State.

We, at the Arab-Hellenic Chamber, take this opportunity to extend our warmest regards and reaffirm our commitment to cooperating with Her Excellency Mrs. Benhabouche, Ambassador of Algeria, towards further strengthening the existing friendly relations between Algeria and Greece across all business sectors.

We also wish our dear friend, Ghady, the best of success in his new post at the Vatican State.

New Charge d’Affaires at the Embassy of Lebanon

Marwan Francis is the Chargé d’Affaires a.i., at the Embassy of Lebanon to Greece, since November 2024. He holds a Bachelor degree in Business Administration from the American University of Beirut (1997), a Master’s in Business Administration from the Ecole supérieure des Affaires de Beyrouth (2000), and a Master’s in International Security & Diplomacy from the University of East Anglia, London Academy of Diplomacy (2013).

Prior to his appointment, he served as Deputy Head of Mission at the Embassy of Lebanon to the United Kingdom of Great Britain and Northern Ireland, in London (2018-2024). Mr Francis also served as Counsellor in the Permanent Mission of Lebanon to the United Nations, in New York (2015- 2018). He had previously headed the Consular Section, at the Lebanese Ministry of Foreign Affairs and Emigrants in Beirut (2012-2015). Served at the Embassy of Lebanon to the United Kingdom of Great Britain and Northern Ireland, in London (2009-2012) in his capacity as First

Secretary. He was Second Secretary at the Embassy of Lebanon to the United States of America, in Washington D.C. (2005-2009).

Mr Francis joined the Lebanese Foreign Service in 2003 as a career diplomat. Before joining the Foreign Service, he had worked in the private sector for Deloitte & Touche Saba & Co, the National Bank of Kuwait and Blom Bank SAL.

We, at the Arab-Hellenic Chamber, would like to seize this opportunity to welcome Mr. Marwan to Greece and assure him of our best intentions to cooperate with the Embassy of Lebanon to foster the bilateral relations between the two countries.

HALIEUTIS 2025

Under the patronage of His Majesty King Mohammed VI, the 7th edition of Halieutis will take place from 5-9 February 2025 at Agadir Exhibition Park, Morocco, under the theme “Research and Innovation for a Sustainable Fishing Sector.” This biennial international meeting of the fishing sector will bring together, in a total area of 18,000 sq. m. international and local exhibitors from the sectors of fishing, aquaculture, processing of marine products and fishing equipment. In the previous edition, in 2023, 337 exhibitors participated from 49 countries and 50,000 visitors.

It is reported that Morocco, with a coastline of more than 3,500 km, ranks as the leading fish producer of Africa, as well as the leading producer and exporter of sardines in the world. The fishing sector in Morocco is responsible for more than 220,000 direct and almost 500,000 indirect jobs.

It is noted that Morocco's fisheries and aquaculture sector can offer high prospects for Greek products, especially related equipment and diagnostic control, as well as investment opportunities for Greek companies.

15th International Invention Exhibition 2025

In light of the efforts made by the League of Arab States to support youth, innovation and entrepreneurship within the framework of enhancing economic and social development in Arab countries, the General Secretariat, in cooperation with the Kuwait Science Club, will organize the "15th International Invention Exhibition 2025" during the period 16-19/2/2025 in Kuwait.

The International Invention Exhibition in the Middle East (IIFME) is the second largest international exhibition of inventions after the Geneva International Exhibition according to the global classification, and it also receives great regional, Arab and international attention, and sheds light on the inventions and innovations of Arab and Kuwaiti youth in particular, and highlights the civilized face of the State of Kuwait and its role in supporting and encouraging inventors to serve humanity.

Many Arab and foreign entities and more than 40 countries that appreciate inventions and inventors will participate in the exhibition.

The exhibition will focus on modern advanced inventions and technologies in the following fields: mechanical and industrial tools, computer science, civil engineering construction, electronics, agriculture and horticulture, teaching methods, aviation, motor vehicles, alternative energy etc.

Interested parties can contact:

14th Arab-Austrian Economic Forum & Exhibition High-level Ministerial attendance and Future of Renewable Energy

The doors to the 14th Arab-Austrian Economic Forum and Exhibition opened on Wednesday, 23rd October, signaling the start of a dynamic day filled with forward-thinking dialogue and invaluable exchanges.

Distinguished guests from Austria and across the Arab world were welcomed by the resonant strains of the Austrian National Anthem, setting an inspiring tone. The event began with a special video message from H.E. Dr. Alexander Van der Bellen, the President of Austria.

Following the President's message, DI Omar Al-Rawi, Member of the Vienna Provincial Parliament and City Council, addressed the gathering on behalf of Mayor Dr. Michael Ludwig. Al-Rawi underscored the role of the City of Vienna in advancing smart city initiatives and renewable energy projects, presenting Vienna as a model example of modern energy solutions in urban construction and infrastructure development.

Subsequently, H.E. Dr. Werner Fasslabend, Austrian President of the AACC, took the stage to acknowledge both the historical and economic ties shared by Austria and the Arab nations, emphasizing the forum's potential to further solidify these connections.

In a sequence of high-level addresses, H.E. Dr. Hassan Khaddour, Designated President of the Arab Ambassadors Council, and Dr. Martin Kocher, Austria's Federal Minister for Labour and Economy, elaborated on the opportunities for growth and mutual benefit in key sectors. Following Dr. Kocher's remarks, Mag. Florian Frauscher from the Austrian Federal Ministry for Digital and Economic Affairs took the floor, sharing a lighthearted note by mentioning that his former minister, Margarete Schramböck, had recently relocated to Riyadh, Saudi Arabia. Frauscher emphasized Austria's commitment to collaborative efforts with Arab delegations across various sectors, particularly in energy,

underscoring the country's interest in fostering economic partnerships with the Arab world.

The forum's opening, moderated by S.G. Moudar Khouja, was a well-coordinated display of visionary leadership, setting the stage for a day rich with sector-specific insights.

The forum's keynote address by Mr. Said Taufik Ridha from the OPEC Fund shifted the focus to energy investment, unveiling strategic opportunities in a rapidly evolving landscape. The following panel on "Investments in Energy" saw experts from OMV, Saudi Arabia, and Mauritania discussing energy's pivotal role in fostering economic growth and regional stability.

After a networking lunch, the forum resumed with an exploration of "Energy and Renewable Energy," bringing to the forefront innovative insights into sustainable energy solutions. H.E. Haitham Al Ghais, Secretary General of OPEC, provided a message that underscored the complex nature of the global energy landscape, saying:

"In our approach to energy, we must adopt an 'all and all' strategy, recognizing that no single energy source can meet future demand alone. OPEC's recent World Oil Outlook 2024 highlights a 24% rise in global energy demand by 2050. Balancing oil demand with renewable energy investments is essential for both economic stability and sustainability. OPEC member countries, including those in the Arab world, are leading investments in renewables, low-emission solutions, and technologies like carbon capture. Together, we can shape a future that prioritizes both energy accessibility and environmental responsibility."

Esteemed speakers including Dr. Nazir Aboud Faza, representatives from Daclab, Oliver Obrist, Dr. Chandrasekhar Ramakrishnan, and Dr. Bernard Stöckl shared pioneering projects in renewable energy, carbon economy, and e-fuel technology.

From 3:00 to 4:00 pm, the forum featured a special Showcase of Libya, focusing on the wealth of economic opportunities for engagement within the country. Chaired by H.E. Dr. Khaled Hanafy, the session included insightful presentations from key Libyan organizations and officials,

among them representatives from the Libyan Chamber of Commerce and Industry, the Libyan Ministry for Oil and Gas (OPEC), and Studio Legale de Capoa. The President of the Austrian Libyan Association also provided valuable input, further underlining Libya's strategic sectors with high potential for Austrian-Arab investment and collaboration.

The showcase underscored Libya's rich resources and highlighted critical industries that could benefit from new partnerships, creating enthusiasm among participants about the avenues for economic cooperation. The forum concluded at 4:00 pm, leaving attendees with fresh perspectives, new connections, and a reinforced commitment to fostering Austro-Arab collaboration and sustainable growth in Libya and beyond.

The Secretary General of the Arab-Hellenic Chamber, Mr. Rashad Mabger, who attended this prestigious event, congratulates his colleague, Mr. Mouddar Khouja, for another excellent Forum.

AACC

Congratulations to Louai Kuzbari

Father and son

On October 23, the General Assembly of the Austro-Arab Chamber of Commerce (AACC) held its annual meeting, during which Mr. Louai Nabil Kuzbari was unanimously elected as the Arab President of the Chamber.

Mr. Kuzbari's election to this esteemed position brings fresh energy and perspective to our sister Chamber among Austria's network of chambers. Over the past 35 years, the Austro-Arab Chamber of Commerce has firmly established itself as a cornerstone for fostering Austro-Arab relations across all areas of business and trade.

It is worth highlighting that this election signifies a continuation of the AACC's enduring strength for two key reasons. First, Mr. Louai Kuzbari's election builds on the legacy of his father, Nabil Kuzbari, who founded the Chamber in 1989 and guided it to flourish both in Austria and the Arab world. Second, Louai is a well-recognized figure among Austrian and Arab business circles, bringing significant value to his leadership of the Chamber. Together with our esteemed Secretary General, Mouddar Khouja, their combined efforts promise to elevate the Chamber to new heights of success and influence.

Louai Kuzbari holds an MBA and serves as the CEO of Vimpex Handelsges.m.b.H., as well as the Managing Director of Gimpex, Gulf Import-Export Dubai. In addition to these roles, he is actively involved in various business ventures and professional associations.

He is married and has three sons and one daughter.

At the Arab-Hellenic Chamber, we extend our heartfelt congratulations to Louai Kuzbari on this well-deserved vote of confidence. We also take this opportunity to reaffirm our commitment to working closely with Mouddar Khouja in pursuit of the shared goals of our two Chambers.

Congratulations, Louai!

Wishing you every success in this new role.

Rashad Mabger

Sharjah – Europe Businesswomen Forum: Advancing Women's Empowerment and International Cooperation

Belgium hosted the second Sharjah – Europe Businesswomen Forum on September 24 at the Palais d'Egmont in Brussels as part of the UAE's Sharjah Trade Mission. This forum emphasized international cooperation and women's empowerment, featuring speeches from prominent leaders, including H.E. Hubert Cooreman, Belgian Ambassador at the Ministry of Foreign Affairs, and H.E. Mohamed Al Sahlawi, UAE Ambassador to Belgium.

A key highlight was a panel discussion led by Asma Hassouni, exploring strategies to empower women economically through strategic partnerships, followed

by the signing of a Memorandum of Understanding (MoU) between the Sharjah Chamber of Commerce and Industry and the Arab-Belgian-Luxembourg Chamber of Commerce to enhance business ties.

Co-organized by the European Women's Association (EWA) and SCCI, the forum underscored Belgium's commitment to gender equality and its alliance with the EU in promoting women's rights. This event set a powerful foundation for future collaboration between Belgium and the UAE, aiming toward a more inclusive and sustainable global business community.

Doing business with Arab countries

On September 25, 2024, the Arab-Belgian-Luxembourg Chamber of Commerce (ABLCC), in collaboration with SGS, successfully hosted the 11th edition of our annual seminar "Doing Business with Arab Countries" at the SGS premises in Antwerp. This year's event was marked by insightful presentations, in-depth discussions, and high-level participation, providing valuable insights for businesses interested in expanding into the Arab world.

Distinguished Guests and Speakers

We were honored to welcome a distinguished panel of ambassadors and officials:

- H.E. Mr. Khalid AL-HAJRI, Ambassador of Qatar to Belgium
- H.E. Mr. Pascal H. Grigoire, Ambassador of Belgium to Saudi Arabia
- H.E. Mr. Abdullah AL-DOSERI, Ambassador of Bahrain to Belgium
- H.E. Francois Cornet d'Elzius, MENA Director of the Belgian Ministry of Foreign Affairs

Country Highlights

Qatar: The forum began with H.E. Mr. Khalid AL-HAJRI, who shared updates on Qatar's Vision 2030 plan, outlining Qatar's strides in economic diversification. Steven Martens, Team Leader Connectivity & Products at SGS, further discussed SGS's role and contributions within Qatar.

Morocco: The seminar covered Morocco's promising sectors, such as renewable energy and agriculture, with

insights from Philippe De Potter, EMEA Director at FIT, who highlighted Morocco's strategic position. Wissam Hiti, Economic Attaché of the Embassy of Morocco, and Zineb EL MOUSTAID, Connectivity & Products Manager at SGS Morocco, presented economic opportunities and regulatory frameworks shaping business in Morocco.

Saudi Arabia: H.E. Mr. Pascal H. Grigoire discussed Saudi Arabia's transformation under Vision 2030, focusing on the booming tourism sector and renewable energy initiatives. Steven Martens then outlined SGS's contributions in the Kingdom. The session continued with a panel moderated by Mr. Mounif Kilani, featuring industry leaders such as Mr. Domien De Witte (Barco), Mr. Koen Van Peteghem (Pauwels Transformers), Mr. Philippe Dessoy (BESIX), and Mr. Luc Geerts (Manuport Logistics).

Trade and Credit Insurance: Nabil Jijakli presented Credendo's role in supporting international trade with tailored trade credit insurance solutions, focusing on risk mitigation and fostering opportunities across these nations.

Networking and Key Takeaways

The event concluded with a vibrant networking dinner, allowing over 100 participants to engage directly with the speakers, ambassadors, and industry experts. The evening fostered valuable discussions, solidifying connections and opening new doors for business between Belgium, Luxembourg, and the Arab world.

NEWS FROM THE ARAB - FOREIGN JOINT CHAMBERS

www.arabhellenicchamber.gr

Egyptian Minister of Investment

On 16 October, the Arab-Belgian-Luxembourg Chamber of Commerce (ABLCC) proudly hosted a high-level roundtable discussion, bringing together distinguished diplomats and business leaders. The event featured H.E. Engineer Hassan ALKHATIB, Egypt's Minister of Investment and Foreign Trade, as the keynote guest. It also provided a unique platform to welcome H.E. Mr. Ahmed Abu Zeid, Egypt's new Ambassador to Belgium, alongside H.E. Mr. Frannois Cornet d'Elzuis, Director of the MENA region at the SPF Foreign Affairs, and H.E. Mr. Christian Muller, Ambassador of Luxembourg to Egypt.

The gathering focused on addressing key economic issues, discussing emerging market trends, and exploring business opportunities that link Belgium, Luxembourg, and Egypt. The dialogue was enriched by the active participation of attendees from various sectors, facilitating a dynamic exchange of ideas and insights on fostering stronger bilateral and multilateral cooperation. A particularly notable aspect of the event was the open discussion, which allowed all participants to engage in fruitful conversations, exchanging their perspectives on how to best leverage the growing opportunities in Egypt's expanding market. The roundtable reaffirmed the importance of international partnerships and collaboration, especially in fields such as trade, investment, and innovation.

The ABLCC extends its heartfelt thanks to all who attended and contributed to the success of the event. We are excited about the potential collaborations that will emerge from these meaningful discussions and look forward to organizing more such events to strengthen our international relationships.

FIT International Business Convention – UAE seminar

On November 5th and 6th, the Arab-Belgian-Luxembourg Chamber of Commerce (ABLCC) proudly participated in the Flanders International Business Convention, a gathering of global leaders focused on expanding trade and investment opportunities. ABLCC hosted a seminar titled “UAE: Leadership, Innovation, and Sustainability,” spotlighting the UAE's economic progress and commitment to sustainability.

The seminar opened with remarks from ABLCC's Secretary General, Mr. Qaisar Hijazin, who underscored the strong, stable ties between Belgium, Flanders, and the UAE. H.E. Mr. Mohamed Al Sahlawy, UAE Ambassador to Belgium, highlighted the country's economic development and skilled workforce, while Mrs. Joyce Choukri from Ras Al Khaimah Economic Zone (RAKEZ) presented RAKEZ's sustainability initiatives, reflecting the UAE's forward-thinking approach to growth.

ABLCC extends its thanks to Flanders Investment and Trade (FIT) for organizing this event and to everyone who joined, making it a success. We look forward to deepening collaboration and fostering sustainable, innovative partnerships between Belgium, Luxembourg, and the UAE.

DP PUMPS would like to extend its heartfelt thanks to all visitors who attended its booths at two major trade fairs this fall

At SMM 2024 in Hamburg, it was an honor to meet professionals at the Enterprise Greece Invest & Trade booth. DP PUMPS appreciated the opportunity to introduce its specialized marine industry products and engage with such an interested and enthusiastic audience. The strong interest shown reaffirmed the company's commitment to delivering innovative, high-quality solutions for the marine sector.

Likewise, at the Saudi Infrastructure Expo, DP PUMPS was grateful to connect with visitors and industry experts, sharing insights about the company's specialized solutions in water supply, sewage, irrigation, and drainage. The keen interest expressed highlighted the significance of these solutions and strengthened the company's dedication to providing cutting-edge, reliable offerings for global infrastructure needs.

Engaging with professionals and industry leaders at both events has been inspiring. The support received motivates DP PUMPS to continue developing high-performance, customer-focused solutions, backed by seven decades of expertise in the pump manufacturing industry. The company looks forward to building strong partnerships and delivering innovative products that meet the industry's evolving demands.

Lifestyle Investment In Greece

Superyacht Business with Tax-Free Income

The longstanding friendship between Saudi Arabia and Greece creates a fertile ground for yachting investments. Greece, an EU member in a secure environment, attracts affluent travelers. With new marinas and coastal developments like the "Ellinikon," Greece's yachting sector is booming, growing by 7% despite global challenges.

Registering your yacht in Greece allows you to benefit from a favourable tax regime while enhancing the profitability and prestige of your asset. Owners of professional yachts registered under the Greek Registry benefit from TAX-FREE income (Law 27/1975), creating an attractive investment opportunity for those looking to maximize returns.

Meanwhile, Northern Saudi Arabia's Sindalah Island is emerging as a new yachting frontier, offering exceptional investment potential through visionary projects like the Amaala Resort and NEOM.

With year-round charters and an extended season from April to October in Greece, yachting not only serves as a lucrative venture but also promises quality time with family and friends. Seize the opportunity to unlock your investment potential today!

«استشرفت إعمار فرص التوسع في الخدمات المتعلقة بقطاعات البيئة والاستدامة في المملكة والمنطقة، فقررت إطلاق شركة طول المناخ للمساهمة بفعالية في الجهود الرامية إلى معالجة التحديات المتزايدة التي تفرضها ظاهرة تغير المناخ. تركز طول المناخ على تقديم حلول قائمة على المعرفة والابتكار في مجالات الدراسات البيئية المتخصصة»

والاقتصاد الأخضر وخدمات التسجيل والتأهيل لشهادات الكربون وتوظيف تقنيات الاستشعار عن بعد والبيانات الجيومكانية وتقنيات المراقبة والذكاء الاصطناعي لإدارة البيانات الضخمة. يُعدّ هذا القطاع واحدًا من الأدوات الهامة التي تدعم التحول نحو اقتصاد منخفض الكربون، وهو ما يسهم في تقليل آثار التغير المناخي على البيئة.

تتميز استراتيجيات طول المناخ بتفردتها وتكيفها مع متطلبات السوق المختلفة. فهي تعمل على تقديم حلول مخصصة مصممة لتلبية احتياجات كل منظمة على حدة. فمن خلال تقييم دقيق لبصمة الكربون التي تتركها الشركات، تقدم طول المناخ استراتيجيات مخصصة تساعد المؤسسات على تحقيق أهدافها البيئية بشكل فعال. هذه الحلول تتيح للشركات ليس فقط تحسين أدائها البيئي، ولكن أيضًا الامتثال للمعايير الدولية المتعلقة بالاستدامة، مما يعزز من قدرتها على المنافسة في سوق عالمي يتحول بشكل متسارع نحو اعتماد معايير الاستدامة.

بفضل هذه الحلول المبتكرة، يمكن للشركات الاستفادة من فرص جديدة في اقتصاد الكربون الناشئ، وهو الاقتصاد الذي يشهد تطورًا سريعًا على المستوى العالمي نتيجة لتزايد الاهتمام بتغير المناخ. توفر طول المناخ الأدوات اللازمة لمساعدة الشركات على التنقل في هذا الاقتصاد، بما في ذلك المشاركة في أسواق الكربون والحصول على اعتمادات الكربون التي تعزز من قدرتها على الحد من تأثيراتها البيئية. وبذلك، يمكن لهذه الشركات أن تلعب دورًا فعالًا في الحد من آثار التغير المناخي والمساهمة في بناء مستقبل أكثر استدامة.

شركة إعمار للاستشارات الهندسية و حلول المناخ العالمية رعاة فزيون في المنتدى الاقتصادي العربي- اليوناني الثالث عشر..

أهم مشاريع
التحول البيئي
في العالم :
مشروع زراعة
10 مليار شجرة
في المملكة
العربية
السعودية

على مدار عقود ومنذ تأسيسها قبل أكثر من 30 عاما، حققت شركة إعمار للاستشارات الهندسية إنجازات هامة عبر تقديم خدماتها الاستشارية المتنوعة في المجالات المتعلقة بالتنمية العمرانية والحضرية والاستدامة، وهي تسير بخطى ثابتة نحو بناء مستقبل أكثر اخضرارًا وتوازنًا بين التنمية الاقتصادية والحفاظ على البيئة. تعتمد إعمار على نهج متكامل في تقديم حلول مستدامة تشمل مختلف مجالات عملها. حيث تركز الشركة على تحسين كفاءة استخدام الموارد، وتقليل استهلاك الطاقة والمياه، والحد من انبعاثات الكربون. كما تلعب دورًا محوريًا في دعم تطوير بنية تحتية حديثة تواكب تطورات التنمية المستدامة من خلال تبنيها لأحدث التقنيات التي تعزز من كفاءة الأداء البيئي.

من أبرز إنجازات إعمار في مجال الاستدامة هو اعتمادها طوًلاً مبتكرة في قطاع البناء. فهي تعتمد معايير البناء الأخضر التي تتماشى مع أفضل الممارسات الدولية في هذا المجال، مما يسهم في تقليل التأثيرات البيئية السلبية خلال كافة مراحل المشروع. كما تشارك إعمار بفعالية في جهود حماية الموارد الطبيعية عبر تعزيز مفهوم الاقتصاد الدائري، حيث تهدف إلى تقليل النفايات وإعادة تدوير المواد واستخدامها في مشاريع جديدة، مما يعزز من استدامة الموارد. كما أن إعمار تفخر بأنها قامت بقيادة التحالف المشكل لإعداد الدراسات العلمية والفنية والاستراتيجية لأحد أهم مشاريع التحول البيئي في العالم ، وهو مشروع زراعة 10 مليار شجرة في المملكة العربية السعودية .

لؤي نبيل كزبري

الرئيس العربي للغرفة العربية النمساوية

لؤي ونبيل كزبري

في 23 أكتوبر 2024، عقدت الهيئة العامة للغرفة العربية النمساوية اجتماعها السنوي وانتخبت بالإجماع لؤي نبيل كزبري كرئيس عربي للغرفة، يأتي هذا التعيين صوت ثقة في لؤي، ويعد امتداداً لتعزيز مكانة الغرفة في فترتها القادمة، كما قررت الهيئة العامة بتزكية جامعة اختيار الأستاذ نبيل كزبري رئيساً فخرياً، ويأتي هذا التشريف تقديراً لدوره كمؤسس للغرفة العربية النمساوية وتحصيل حاصل لدوره البارز في تعزيز مكانتها في النمسا والعالم العربي طيلة خمسة وثلاثون عاماً.

والتهنئة هنا جامعة إلى نبيل ولؤي، في هذه السطور يحтар المرء من أين يبدأ في مناقب الأستاذ القدير نبيل أو الابن لؤي الذي من الواضح أنه يحمل كثير من صفات والده الحميدة. كان لنا شرف التعرف على نبيل منذ سنوات طويلة ووجدنا في شخصه عمق في المعرفة والحوار وبعد ثاقب وبساطة في التعامل والتواصل.

وفي انتخاب لؤي استمرارية للنهج الذي سار عليه أبيه، يبشر بالخير للغرفة العربية النمساوية، يحفل تاريخ لؤي المهني الذي يمتد قرابة خمسة ثلاثون عاماً في محطات تدرج فيها وأكسبته خبرة واسعة، وهو حالياً يشغل منصب الرئيس التنفيذي لمجموعة شركات VIMPEX، التي تعد واحدة من الشركات العالمية في صناعة الورق.

يحمل لؤي درجة الماجستير في إدارة الأعمال متزوج ولديه ثلاثة أولاد وبنات.

يطيب لنا في الغرفة العربية اليونانية أن ننتهز هذه الفرصة لنهنئ لؤي على انتخابه رئيساً عربياً للغرفة العربية النمساوية متمنين له ولصديقنا مضر خوجة الأمين العام السير بالغرفة نحو آفاق تصيف ازدهاراً إلى تاريخ الغرفة المشرف، وندعو الله هنا أن ينعم على أستاذنا القدير نبيل كزبري (أبو رفيق) بالصحة والسعادة وطول العمر.

ندوة التواصل عن بعد " مناخ العمل والاعمال في العالم العربي" (الأردن - قطر)، 15 يوليو 2020

45 عاماً من التّميّز في الشّراكة

رشاد مبجر
الأمين العام

نحتفل هذا العام بالذكرى الخامسة والاربعين لتأسيس الغرفة العربية اليونانية، وهو حدث شكّل منعطفاً في العلاقات العربية اليونانية حينذاك. ومع أن المناسبة تُوحى بمساحة معقولة من الإشادة بالغرفة ومسيرتها وإنجازاتها، لكن الاولى بنا التعبير عن صادق التقدير والعرفان للمؤسسين والرواد الاوائل التي كان لرؤيتهم وجهودهم الدؤوبة الفضل الكبير في الاساس المتين للغرفة، والإشادة هنا موصولة الى الشركات العربية واليونانية الاعضاء بالغرفة والى أعضاء مجلس إدارة الغرفة والسفراء العرب والسلطات اليونانية واتحاد الغرف العربية في مسيرة الغرفة ودعمها منذ نشأتها وحتى اليوم. والاساس في كل هذا أن إخلاص وجهد العاملين في الغرفة العنصر الفعّال في المستوى المتميّز الذي وصلت اليه في اليونان، وفي أوساط الغرف المشتركة العاملة فيها.

خلال العامين الماضيين، استطاعت الغرفة أن تُحدث قفزة نوعية في فعاليتها وفي تقديمها لقطاعات عمل تحظى باهتمام اقتصادي وأهمية استراتيجية. لعلّ "المؤتمر البحري العربي-اليوناني الاول" في 5 و6 تموز/يوليو 2023، كان الطفرة الاولى في هذا التحوّل النوعي الذي عزّزه حضور متنوّع وكبير من رجال الاعمال من 16 دولة عربية ومن اليونان. تلى ذلك في النشاط النوعي عقد "مؤتمر الصحة العربي-اليوناني الاول" في 23 و24 مايو/أيار من هذا العام، حيث أضاف تميّز آخر في تنوّع الحضور ومستواهم وفي ما تناوله من محاور وقطاعات في مجال الصحة وتفرّعاتها. إضافة الى هذه الفعالية كانت رحلتي العمل التي أشترك فيها ممثلو كبار الشركات اليونانية الى كل من ليبيا ومصر في مايو ويوليو 2024، تميّزت كلا رحلتي العمل بالمستوى الرفيع في عقد اللقاءات الثنائية مع رجال الاعمال في البلدين.

وعلى منوال تقديم قطاعات عمل مُتخصّصة، ينعقد "المنتدى الاقتصادي العربي-اليوناني الثالث عشر" في 27 و28 نوفمبر/تشرين الثاني 2024، ويتناول في جلساته ومداويلاته قطاعي الطاقة والإنشاءات وما يتصل بهما من مجالات عمل عديدة. ومع أن إصدار هذا العدد يتزامن ومداويلات المنتدى، من السابق لاوانه التنبأ بما سنخرج به من هذا المنتدى، لكن ما يُبشّر بالخير وما نعهده صوت ثقة بالغرفة وفعاليتها الحضور الكبير والمتنوّع من 17 دولة عربية واليونان، ونُخبة مُتخصّصة من المُتحدثين في هذا المنتدى. نختتم فعاليات العام بزيارة عمل ثالثة الى العراق، بغداد، وهذه الزيارة تُعدّ الاولى الى العراق في الفترة من 8-12 ديسمبر 2024، ونأمل أن تُضيف لقاءات العمل بُعد آخر في تعزيز التعاون المتنامي بين العراق واليونان.

بمناسبة إحتفال العام الجديد 2025، نتمنى للجميع التوفيق والنجاح، وكل عام وأنتم بخير.

قرر مجلس اتحاد غرف التجارة في دول مجلس التعاون الخليجي في دورته الرابعة والستين التي انعقدت بتاريخ 2024/09/22 تعيين صالح حمد الشرقي أميناً عاماً لإتحاد غرف دول مجلس التعاون الخليجي، يأتي هذا التعيين في وقته ويعد صوت ثقة في قدرات وخبرات صالح الشرقي.

تدرج الأستاذ صالح في غرفة قطر وظائف عدة وتولى منذ 2016 حتى 2024، منصب مدير عام الغرفة، خلال عمله هذا شارك في كثير من المؤتمرات ولقاءات العمل ممثلاً عن غرفة قطر مما أسهم في توسيع قاعدة اتصالاته ومعارفه بين أوساط الإتحادات والغرف التجارية العربية والأوروبية وكان له حضور خاص ومشاركة فعالة في فعاليات وأنشطة الغرف العربية الأجنبية. في كل هذه الأوساط يعد صالح وجه مألوف اكتسب احترام وتقدير الجميع لدمائة أخلاقه وروحه الإيجابية وقدراته الإدارية.

نود في الغرفة العربية اليونانية أن نعبر عن تهانينا الخالصة إلى أخونا صالح في هذه الثقة التي استحقتها بجدارة، وننتهز هذه الفرصة لنؤكد عن كامل تعاوننا معه في كل ما من شأنه تعزيز علاقات دول مجلس التعاون الخليجي واليونان في قطاعات العمل كافة.

مبروك أبو حمد
